Aptuveni 50 % pacientu ar hroniskām slimībām ir grūtības pareizi lietot medikamentus, un tas nopietni ietekmē veselību. Kā šo situāciju var ietekmēt e-veselības tehnoloģijas? Eiropas Komisijas finansētā četrus gadus ilga projekta COST Action ENABLE mērķis ir veicināt izpratni un izstrādāt inovatīvus risinājumus, lai atbalstītu pacientu pareizu zāļu lietošanu un uzlabotu viņu veselības stāvokli. Maija pirmajā nedēļā projekta dalībnieki pirmo reizi tiksies klātienē Malagā (Spānijā), kur RSU pārstāves doc. Dins Šmits, kurš ir šī projekta vadības komitejas dalībnieks no Latvijas.

COST was a real kick to my career. I first got involved in COST actions in 2012 just three years after defending my PHD. Through COST, I started to establish a network via Short Term Scientific Missions and regular meetings of COST actions such as NAMABIO.
