## TESTIMONIAL

“ For a country like Armenia with great research potential but not enough engagement in the international scientific community, COST is an excellent platform to benefit in many ways. It's a great support for the ongoing reforms and developments in national science. It's a keystone for the involvement of the country and individual institutions in effective consortia for projects in Horizon Europe and/or other funds. ”

**Dr Alla Aleksanyan**

Senior researcher, Institute of Botany of National Academy of Sciences of Armenia
